

SUMMER SCHOOL

WCOC typically offers two summer school options for students. Options are flexible based on the students' needs, and usually operate as a "job" with students eligible to earn credits and pay based on their performance. It is required for all seventh and eighth grade students, and all Level 1 students to attend the entire summer school programming; Level 2 students usually have an option of taking one or two summer sessions UNLESS they are behind in credits toward graduation, then they are required to do both. Level 3 students will have the option of attending as well, but attendance may be mandated if they are behind in credits.
